PRESENTATIONS

11.2021 Interventional Psychiatry of the Swiss Society of Interventional Psychiatry Module T3-4:

Further invasive and non-invasive brain stimulation procedures, Technical aspects of these procedures, Effects and side effects of the methods, Specific clinical basics for the individual procedures, Current status of clinical dissemination and use (indications) of these methods, evidence and efficacy, Scientific evidence and research update on these methods

07.2021 Interventional Psychiatry of the Swiss Society of Interventional Psychiatry Module T3-3:

Preparatory diagnostics and implementation of TMS with patient information and risk management, Aspects of long term/maintenance TMS therapy, Knowledge of the evidence and effectiveness of the TMS method, Cost-benefit analysis of TMS therapy, Scientific evidence and research update on TMS

05.2021 Interventional Psychiatry of the Swiss Society of Interventional Psychiatry Module T3-2:

Indications and efficacy of TMS including patient selection and evaluation, Special indications , TMS and (pre-existing) medication and concomitant therapies, Side effects and emergency situations, Contraindications and risk patients

04.2019 TMS training Course in Psychiatry: rTMS in Other Psychiatric Disorders presented to psychiatrists and to neurologists, Bern, Switzerland

05.2018 TMS training Course in Psychiatry: rTMS in Other Psychiatric Disorders presented to psychiatrists and neurologists, Bern, Switzerland

03.2018 European Psychiatric Association, 27th European Congress of Psychiatry, Transcranial Magnetic Stimulation Section, Chairman, Nice, France

04.2017 TMS training Course in Psychiatry: rTMS in Other Psychiatric Disorders and Other Stimulation Paradigms presented to psychiatrists and neurologists, Bern, Switzerland
